Differentiated Instruction Strategies

Differentiating instruction may mean teaching the same material to all students using a variety of instructional strategies, or it may require the teacher to deliver lessons at varying levels of difficulty based on the ability of each student. Teachers who practice differentiation in the classroom may:

What is Differentiated Instruction? Examples of Strategies

Differentiating the course content requires that students are pre-tested first so that the teacher can identify the students who do not require direct instruction. Students who demonstrate an understanding of the course content may skip the direction instruction and go right to application where they apply the concepts to solve a problem.

1. Differentiating The curriculum content
