### **System Design Document Template - its.dot.gov**

The System Design Document is a required document for every project. It should include a high level description of why the System Design Document has been created, provide what the new system is intended for or is intended to replace and contain detailed descriptions of the architecture and system components.

### **System Design Document Template - Project Management Docs**

Software Design Document (SDD) Template. Software design is a process by which the software requirements are translated. into a representation of software components, interfaces, and data necessary for. the implementation phase. The SDD shows how the software system will be. structured to satisfy the requirements.
